Spanish Workbook, Magazine & WordPerfect	\$35														1

\* If Students are intending to continue through to senior level in Maths and Sciences purchasing a graphics calculator instead of a scientific calculator in Year 9 or 10 is recommended.

Note: If your child is in a BYOD class in 2018, they may not require more than 1 book per subject. We recommend you purchase single books for the beginning of the year. If required, extra books can be purchased at the School Office throughout the year.
